

Amendments to the Specification

Page 6, please replace the paragraph spanning lines 17-21 with the following rewritten paragraph:

When the amount is less than 5 w/w %, the adhesivity ~~diereases~~ decreases and it is difficult that the preparation maintains to stick to mucous membrane of the oral cavity, and when the amount is beyond 90w/w %, the preparation becomes fragile and becomes difficult to keep the shape. Therefore, such amounts are not preferable.
